

Component: Private Veterinary Clinic
 Food Hygiene & Technology and Veterinary Public Health

Dear college,

First of all we would like to express our sincere thanks for your generous collaboration with the Faculty of Veterinary Medicine at the ULPGC and the education of our students. We know it is a great effort to devote your time and sharing your experience and professional activity with us.

Here you have a short questionnaire that will help us to assess the period of implementation of practices that our student has made under your supervision. Although it means only 10% of the mark, without your favourable report the student can not pass the entire subject. This survey is CONFIDENTIAL, so we ask you to fill it, enter it in an envelope and give it to the student closed. The student will deliver to the Academic Tutor.

0-Very poor 1-Poor 2-Average 3-Good 4-Very Good 5-Excellent

Aspects to be evaluated	0	1	2	3	4	5
a) Expertise (Technic competence)						
b) Learning capacity
